Week 4 Assessment

- Create a page which has a recycler view, populate that RecyclerView with 20 views which will contain an image, a first name and a last name.

- When each single item in the RecyclerView is tapped, navigate to an Activity which will display the user image, first name and last name in full view.

- Define a function which when given any string, it'll remove the vowels 'a', 'e', 'i', 'o', and 'u' from it, and return the new string.
